Personal Summary

As a Warehouse Technician / forklift operator at O'Connell Group for over five years, I have supervised the storage of raw materials and finished products for companies in the pharmaceutical industry. I have ensured compliance with cGMP, GDP, and clean room standards, as well as safety protocols and SOPs. I have also contributed to customer satisfaction by picking and preparing orders, scanning, labelling, and preparing relevant documentation and paperwork, safely loading and offloading trucks and trailers, shunting containers, and operating counter balance and reach truck.

In addition, I have obtained multiple certifications in fire safety, first aid, and safe pass, which reflect my commitment to continuous learning and improvement. I am a diligent and safety-conscious worker, who is motivated by challenging and rewarding environments. I seek to apply all of my transferable skills and knowledge to a role that offers opportunities for growth and development.
